

SIMPLIFY AND OPTIMIZE YOUR CLOUD EXPENSE MANAGEMENT IN ONE TRUSTED PLATFORM.

Tangoe® Cloud is a Cloud Expense Management (CEM) solution that empowers enterprises to centralize, comprehend, and control their complex cloud environments.

CENTRALIZE

Gain complete visibility into how much you are spending and what you are spending it on by linking your expenses and cloud assets to departments or cost centers all in one place.

COMPREHEND

Transform complex cloud data into meaningful information through tagging, reporting, and analytics so you can make informed business decisions.

CONTROL

Customize workflows and standard processes to approve, allocate, and forecast your cloud resources and expenses.

Cloud technology is complex.

Tangoe Cloud helps you gain control.

ANALYTICS

Translate cloud consumption data into actionable insights. Analysis of your spend and usage will be performed to uncover optimization opportunities to eliminate overestimating capacity and waste.

PROGRAMS

Leverage one solution to house all cloud vendor contracts and rates. Implement recommendations and best practices to improve management, visibility, and cost allocation.

EXPENSES

Gain visibility into your cloud spend across multiple vendors for increased control and reduced costs. Identify and categorize expenses for accurate cost allocation, total cost of ownership and chargeback/show back reporting.

ASSETS

Manage your cloud asset resources and link instance identifiers to cost centers, business units and/or locations for improved visibility and accountability.

INTEGRATION

Expand your cloud technology experience by integrating with HRIS, accounting, and financial systems via custom integrations.

WORKFLOW

Implement best practices that improve program management and corporate governance. Automate invoice approval processes to align with your organization's hierarchy and business rules.
