

# Tangoe One for Mid-Enterprise

Mid-enterprise companies need to understand the total cost of ownership of their telecom, mobile, and cloud services to avoid overcharges, analyze usage, and gain the most value. With Tangoe One, you get AI powered software and analytics that provides an efficient, streamlined, simple way to help you make sense out of your tech, quickly in one central location – the same tools large, multi-national organizations used, scaled for your exact needs.

Tangoe One for Mid-Enterprise features multiple options to scale over time and meet the needs of your business today and in the future. From a standard offering with software and reports to increasing detailed analytics and support to a fully managed service. Uncover new cost savings and reallocate resources to drive workforce efficiency, productivity, and satisfaction based on near real time reporting & analytics.

## SIMPLIFY

Simplify, and centralize processes to reduce manual tasks and get a clear picture of your IT expenses. Only pay for what you use, need, and agreed to, on time, every time. Leverage a broad range of features that integrate with your business systems.

## MANAGE

Manage the full lifecycle of your IT assets and expenses with confidence. Error-proof automated processes powered by AI/ML & RPA technology, and data to deliver comprehensive reporting and analytics for actionable insights and improved efficiency.

## OPTIMIZE

Optimize your investments and deliver bottom line cost savings by properly allocating spend and scale your business for growth. Reduce errors, drive resource efficiencies, and strengthen security.

## SECURE

Secure your tech stack with strict governance protocols that strengthen compliance and security to protect your business. Eliminate overspending and guard your intellectual properties.
